Templates

At the top of your SMS Web Pages section, you will see a toolbar that contains several different templates that you can choose for your SMS Web Pages design.

The light grey blocks represent where the images will be placed, you can then see where the headings, body copy and call to action button will be placed.

Images

Simply select your image placeholder on the left, and then on the right hand side, click the 'Images' tab to upload an image. Your previous uploaded images will also be shown which you can delete using the red bin icon.
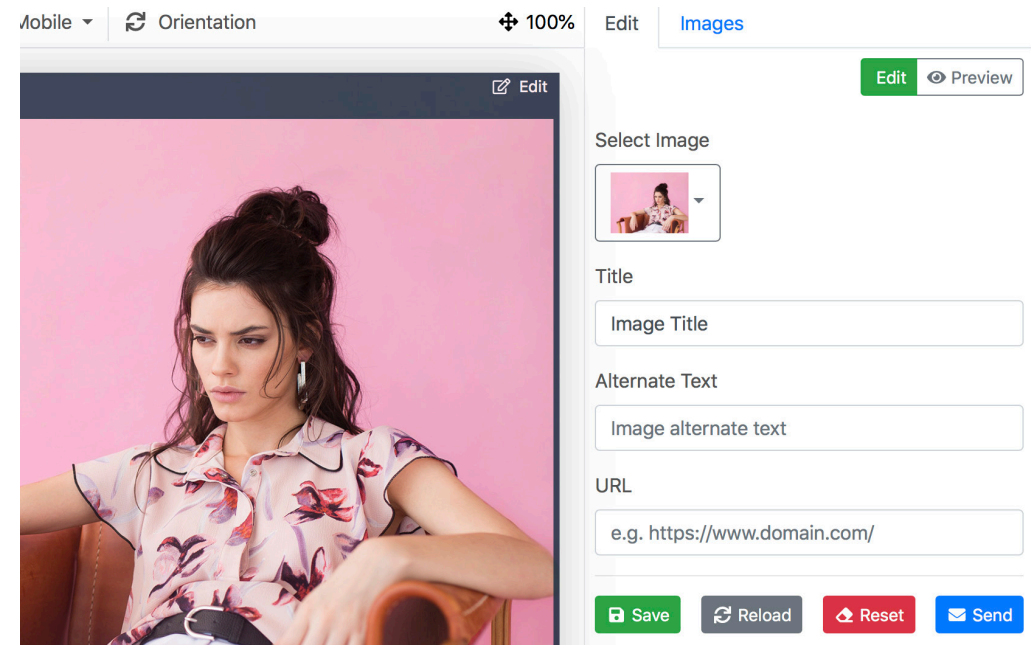

Then click the 'Edit' tab and you will be able to select your desired image from the 'Select Image' dropdown. You can also attach a URL to the image to make it a clickable link.

Text

Simply select your text on the left and the edit panel will appear on the right. You can select your text colour using the colour picker at the top, you can also add a background colour behind the text.

You can then select a specific font and of course type in your text using the bottom field.

Call to action button
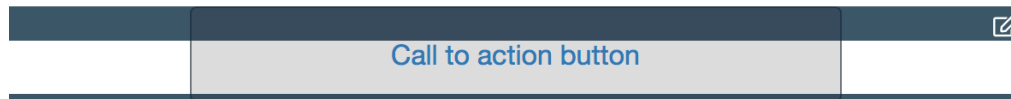

Call to action button

Click your call to action button and the edit panel will appear on the right hand side. Here again you can select the colour of the text and the background colour. You can also state what you want the button to say and of course choose a URL destination for the button.

When you have finished simply press send or you can save your SMS Web Page for another time.
